

Quorum Land Acquisition

More than **10,000** people streamline their business with Quorum

7 of the **10** largest oil and gas companies use Quorum Land

75+ oil and gas companies trust Quorum for enterprise land management

Quorum offers flexibility that lets you integrate land acquisition with land management to streamline operations in the field. By integrating the industry's most widely adopted land acquisition software with leading land management from Quorum, you benefit from automation, workflow, and data validation that speeds the execution of new agreements while reducing data entry errors.

Quorum Land Acquisition provides secure, web-based tools that automate processes for establishing land ownership, tracking progress, and generating agreements. It connects your land brokers in the field with your back-office land teams, streamlining land acquisition management by automatically generating, reviewing, and approving lease agreements and payments.

With Quorum, you gain visibility and insight into lease acquisitions with powerful reporting. Quorum Land Acquisition gives land professionals the ability to schedule, distribute, and export standard land reports. Plus, non-technical users benefit from easy-to-use tools for building custom reports.

Features

The industry leader for more than 20 years, Quorum Land manages the entire life cycle of land assets.

Quorum addresses the land management needs of the entire upstream value chain including landmen, lease administrators, production operations, and accounting.

Acquisition Management

Create and manage multiple lease acquisition projects, assigning them to one or many brokerage firms.

Comprehensive Tracking

Track complete agreement details: lessor names, negotiation notes, mineral interest, acreage, etc.

Configurable Data Entry Rules

Configure data entry rules and requirements to meet the specific needs of your business.

One-Time Data Entry

Reduce data entry time by enabling agreements to flow directly into Quorum Land Management.

Broker Management

Track broker performance, measure quality and cycle time, and ensure guidelines are being followed.

Mapping Integration

View, analyze, and understand land assets with seamless integration to Esri® ArcGIS.

Document Management

Upload, attach, and retrieve files including deeds, ownership reports, plats, leases, and more.

Flexible Reporting

Gain visibility and insight into lease acquisitions with standard and ad-hoc reports.

Quorum's innovative energy business management platform is designed to deliver optimal efficiency and maximize profit across the energy value chain.
