

myQuorum Accounting

A Single Source of Truth for Financial and Operational Health

More Accurate, Simpler Close Cycles

More than **10,000** people streamline their business with Quorum

100+ of companies, from independents to supermajors, rely on Quorum

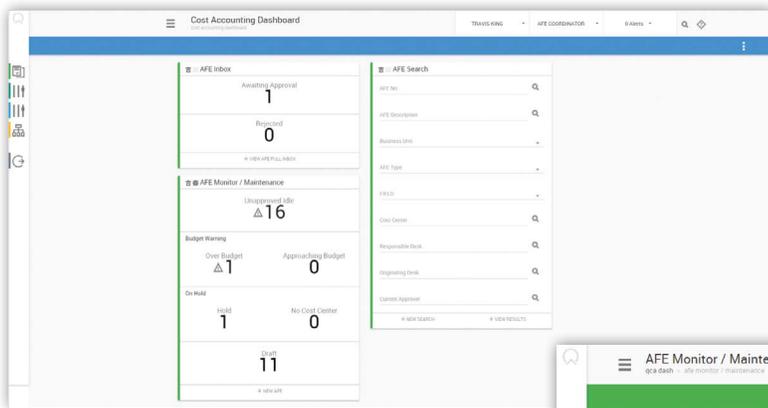

19 E&Ps have selected Quorum Accounting over the last 3 years

To meet the evolving needs of the modern energy marketplace, companies need to move beyond spreadsheets and legacy accounting systems. Purpose-built for energy companies, Quorum software brings all core finance and accounting functions together into an integrated accounting suite that:

- ◆ Streamlines and increases efficiencies for finance and accounting departments.
- ◆ Reduces manual processes and improves data accuracy with digital, automated workflows and records.
- ◆ Enhances visibility and understanding of cross-department financial health.

Taming Complex Regulations

The energy industry's complex regulatory environment requires a robust set of tools to tackle compliance and governance requirements. myQuorum financial and accounting software is SOX compliant out of the box and natively supports multi-jurisdictional regulations.

myQuorum delivers next-generation integrated software and solutions. We continually invest in new technology including innovation to improve user productivity so that you can access information at any time, from any place, on any device.
